

MidSouth Tag & Label

THE MIDSOUTH TAGGER

...Rapid. Rugged. Reliable.

NEW Indexing Ports allow for quick change between tag sizes, by just moving a pin.

Our New **Exhaust Valve** increases speed and provides superior power to shoot even the largest tags.

Heavy Duty Metal Parts for long term durability.

Evenly Balanced, lightweight and simple to use.

Built with readily available **Commercial Parts**.

No need to remove **CoverPlate** to change tag sizes.

ALL Metal drive block and cover plate provide long lasting wear.

1/4" Industrial Coupling for quick attachment of air supply.

Reel Assembly Designed for easy access in loading/unloading tag for quick change.
